

Bob Bicknell-Knight

Who Needs Teachers When You've Got A Computer-Aided Education?, 2016

Television screen, emoji pillows, media player

4 mins 51 sec

A work utilising an essay by Clifford Stoll written in 1995 titled 'Why The Web Won't Be Nirvana'. The text is visualised by harnessing various memes garnered from Google searches, demonstrating how the internet has changed and distorted since the essay was originally published in the mid-90s.
